

Steve's Flying Blogs 2005

I've been flying for a little over 10 years and my wife Charlotte recently qualified and got her licence. We are members of the FreeFlight Aviation group which operates three Cirrus aircraft and we also have access to a PA28 and Grumman Cougar owned by pilot friends. This section is my blog of some of our flying adventures from 2005. You can on the photos to pop up a higher resolution version.
